## Bright Design Group Announces Collaboration with Sestak Remodeling Solutions

**WASHINGTON, DC (metro area) – January 5, 2009** – Bright Design Group, a full-service firm offering interior architecture and design announced a collaboration with Sestak Remodeling Solutions, a business providing contract remodeling and construction.

The small businesses will work together to offer the best service of design and build with an agreed committed to service, quality, functional design and fine craftsmanship. This focused partnership will also assist homeowners avoid possible costly renovation mistakes.

"Bright Design Group and Sestak Remodeling have worked together on many past projects to outline space planning, material selections and complete implementation. We realize the collaboration of our skills and resources better serves the client" said Jim Bright, principal of Bright Design Group.

"This is a true win-win situation. The customers get special attention for remodeling and design. With predetermined plans for construction and selection of materials, we basically know exact details before ever starting construction. It saves time and money." said Robert Sestak, owner of Sestak Remodeling Solutions.

Bright Design Group, based in Washington, DC, specializes in all aspects of the interior environment. With a mission to define your surroundings, they create enduring design using classic details, modern function and superb finishes. The objective is to understand and find solutions for your space needs. Vision and creativity in matters of color, scale, texture and "to-the-Trade" furnishings allow for a unique design.
