

BRIGHT DESIGN GROUP

define your surroundings

Interior Architectural & Design

Each project starts with a custom interior design inspired by the space without any predetermined ideas. Using a personal approach we develop exceptional uses of space, color, materials and finishes. We are environmentally conscious and incorporate sustainable products when possible.

Specialty Projects

Our focus is residential and commercial interior projects with the extended ability to define special event and exterior spaces. The attention to detail and a well planned theme are artistic elements found in every project.

Custom Furnishings & Artisans

When necessary, we custom design furnishings and commission products. Working with the best crafters and artisans assures perfection. Using well made furniture, quality textiles and distinctive sculpture adds character to your surroundings.

Antiques & Objets d'Art

Locating a special item for your collection usually takes time and we can assist. From period furnishings, modern classics or rare historic pieces, these fine items will reveal a home of discerning taste.
